# Saskia van Doorn

## Life Sciences

European and Dutch Patent Attorney  
*Senior Associate*

Saskia van Doorn started her career as a patent attorney in 2000 after having worked as an editor at Technisch Weekblad for four years. She studied biochemistry at the Radboud University Nijmegen (1991-1996).

Her particular expertise lies in the fields of biochemistry, medical (bio)technology, life sciences, medicine, molecular chemistry and pharmacology. She has a wide experience in patent prosecution, oppositions, patentability searches and third-party rights analyses, mainly for universities and other research institutes, startup companies, and mid-sized companies.
