# Vicky Andréka

## Hightech & Electronics

*Trainee Patent Attorney*

After earning a bachelor's degree in medical imaging at Odisee University of Applied Sciences in Brussels, Vicky further deepened her interest in the nuclear sector. She obtained her master's degree at Hasselt University in industrial engineering sciences, where she specialized in nuclear technology majoring in nuclear and medical.

As part of her thesis, she looked for opportunities for circular economy in the decommissioning of a nuclear power plant with a focus on concrete processing.

In February 2023, Vicky started at V.O. as a trainee patent attorney.

## Education
