

*'It is essential to differentiate the good ideas from suboptimal ones. It is my profession to find niches for both.'*

## Lutz Keydel

### Engineering

European and German Patent and Trademark Attorney, European Patent Litigator  
*Associate*

T +49 89 890 636 936  
l.keydel@vo.eu

Lutz Keydel started his career as a patent attorney in 2003 after having worked as a Project Manager, and Civil and Construction Engineer for different construction firms.

After gaining practical experience on all different kinds of building sites, learning various mechanical arts and finishing his studies at the Technical University in Munich, Lutz joined a team of engineers and practitioners in a Munich construction firm developing his wanted mixture of theoretical and practical knowledge in many technical fields.

Since many years Lutz is now registered as a German and a European Patent Attorney. He is also a representative for European Design and Trademark matters and is approved representative before the European Union Intellectual Property Office (EUIPO).

He has substantial experience in all matters of German and European industrial property law, in patent, trademark and design prosecution as well as in licensing and litigation matters.

Lutz's current practice and previous experience cover a broad range of technologies including supply engineering, emergency management, building physics and construction engineering, medical technology, vehicle and cargo technology, sporting equipment.

In his capacity as European Patent Litigator, Lutz is allowed to act as UPC representative.
